## Conduct Visits And Give Gifts To workers' Families

At our company, there are many workers aged from 18 to 35 years old, married or unmarried who are trained to study abroad or work abroad. In the process of being away from their homes, of course, there will be issues arising with their family in the home country. We have funds to organize visits and give gifts to their families, send them words of encouragement on behalf of their relatives who are far away so that they can study and work abroad with peace of mind.

## Job Counseling And Recruiting workers After They Return Home

We conduct employment counseling for workers who have returned to Vietnam after completing study or work abroad programs through our company.

Our company has a license to conduct job placement in Vietnam, so after workers return home, we will connect them with suitable businesses in Vietnam, creating stable and high-income jobs for them.

In addition, our company is always ready to recruit workers to work for us so can stay updated with the latest knowledge, creating an environment to develop talents.

Collect information on job seeking  
after workers return home and  
reintegrate to report to the  
Vietnamese management authorities.
